## TECHNICAL SPECIFICATION

### Reload No.6 – Concentrated Glass & Stainless Cleaner

Formulated to cut through grease on glass/windows and stainless steel to leave a perfect shine. This Product is based on a blend of solvents, surfactants, coupling agents and sequestering agents.

#### Features:

- Residue free formulation with a smear free finish leaves windows and glass sparkling.
- Removes grease and grime for stainless steel surfaces to leave them sparkling clean.
- Easy to use product-spray and wipe.
- Non aerosol formulation-ozone friendly.
- All surfactants used are biodegradable and phosphate free.
- Suitable for use on VDU's.
- May be used in vehicle cleaning for windows, mirrors, chrome and aluminium.

#### Properties:

Appearance @ 20°C  
pH (neat)  
Odour  
Specific Gravity @ 20°C  
Flammability

#### Specification:

Dark Green, Non-Viscous Liquid  
11  
Fresh Fragrance  
0.978  
Non-Flammable

#### DIRECTIONS FOR USE:

- \* Use through Kitchenmaster dispenser.
- \* See Installation manual.
- \* Spray sparingly on surface to be cleaned / polished.
- \* Wipe off with a clean, lint free cloth.

#### STORAGE:

- Store in original container and protect from extremes of temperature.
- Do not store in direct sunlight nor allow the product to freeze.
- Shelf life (in unopened original container) is a minimum of 18 months.

#### SAFETY ADVICE:

This product is NOT CLASSIFIED under CHIP Regulations.  
In case of contact with eyes and skin, rinse immediately with plenty of water and seek medical advice.

#### PACK SIZES:

4x2L case (76 / pallet).

**For All Reload Products:**

**Aqua Chemical Dilution and Proportioning Dispenser Features Include:**

A chemical dispenser which has several innovative features that enables a fast and simple method of diluting and proportioning for your chemical application. An economical, reliable and user-friendly system to allow diluted chemicals to be dispensed into small and large containers:

**Main Features:**

- Quick and easy installation
- Space saving
- Single or multiple chemical use
- Easy touch button and one hand lever operation
- A backflow prevention device to avoid chemical contamination in the inlet water
- Pistol-grip and bucket hose for remote actuation
- Fill tube designed to minimise excess foam
- Lockable wire rack for chemical containers
- System allows additional units to be added to the existing installation
- Precise dilution between chemical and water can be achieved by changing tips
- One hand bottle filling
- Locking button for filling larger containers

**Super C Dispenser Features Include:**

Unlike some systems where water pressure and temperature can alter the dosage, the Super C dispensing system is highly accurate every time, resulting in control of cost and elimination of waste. No electrical or water connections are required. The dispenser can be installed in a matter of minutes. A measured dosage is already factory set. Each dispenser can be re-calibrated, if required, and is supplied with reset keys and instructions:

**Set Dosages:** The concentrated product is dispensed one shot at a time, with the lever having a time delay mechanism. Employees are therefore prevented from over using or wasting product.

**Easy to use:** First you add the water to: trigger, sink or bucket, depending on your application. Then add one shot of measured concentrate from the appropriate dispenser.

**Safety in use:** The dispensers are elevated off the floor and are fully lockable. A special dispenser master key can be issued to the manager or supervisor for product replacement and priming.

**Reduced storage:** Storage needs are dramatically reduced, leaving you to free up valuable space.

**Smart Pump Dispenser Features include:**

A chemical dispensing system allows concentrate chemicals to be diluted at point of use. Smart Pump requires no water or electricity for installation or operation. Avoids all the problems associated with some systems, which include: insufficient water pressure, limescale and other in-line deposits all of which contribute to inaccurate dosing. An economical, reliable and user-friendly system to allow concentrated chemicals to be dispensed into small and large containers.
